

### WalaGateway

Receive data from your network and remotely control it over the internet with a WalaGateway. Two product variants are available; a unit with a power supply provided and PoE-enabled unit. The Power Supply Unit (PSU) version comes with a power adapter that's suitable for the EU, UK, US, AU and PRC regions. The Power over Ethernet (PoE) version comes with a splitter to separate the power from the data and feed it into a separate input. Allows users with permission to remotely modify or repair the system.
